# Operations

# ▶ Problem statement

With the coming of the global pandemic (COVID-19), Vital Strive has discovered a lot of problems within the medical and healthcare industry, combating the Pandemic. Some of the problems within this industry are;

- ▶ **01 Supply Shortages**  
Supply shortage in preventive materials such as gloves, medical masks, goggles, overalls, sanitizers, Covid-19 diagnostic kits and protective / isolation suits
- ▶ **02 Limited Testing Equipment**  
Limited testing equipment such as test strips, thermometers, ventilation equipment, etc.
- ▶ **03 Administrative bottleneck**  
The bottleneck in administration during the production and supply of COVID-19 materials and equipment
- ▶ **04 Poor Quality Materials**  
The availability of poor quality prevention materials and equipment around the world and certifications (CE, FDA, ISO and PPMA)
- ▶ **05 Limited flexibility**  
Limited flexibility, delivery time and price fluctuation of preventive materials within the healthcare industry.
